HYBRID MODE

Due to the spread of the Covid pandemic, especially of the omicron variant, many countries have recently introduced additional travel restrictions. In this situation, the organisation of the Quark Matter 2022 conference in the traditional form has become unrealistic.

After consulting IAC, the QM conference will be held in a hybrid form with full audio/video streaming of all sessions, available to all the registered participants. We deeply believe that the hybrid form would maximise the scientific profits of the meeting.

Following the change of the conference format, we introduce two registration fees: **470 EUR** for in-person participants and **350 EUR** for online participants. The fee of the online participation reflects the professional transmission costs.

PAYMENTS

- The regular registration fee, **470 (in-person) or 350 (online) EUR, is accepted till February 11**
- From **February 12** the corresponding fee is **600 or 480 EUR**
- It is possible to change the form of participation by **March 11**, whereby a difference of 120 EUR will be requested or refunded
- Reimbursements for cancelation will be made according to the rules specified in the Bulletin 1

ABSTRACT NOTIFICATIONS

The abstract acceptance notifications will be sent by **January 31**
